General description & specifications

The CPS-5 is a two-way passive vented system offering a coverage of 70° conical dispersion, with a 5" coaxial speaker (1.5" LF voice coil and 1" HF voice coil) and 117 dB SPL (300 W program) in a compact enclosure designed for short throw applications.

Due to its small size and sleek design, this system suits very well indoor installation and also can be used as background sound reinforcement.

Weight has been left as low as possible providing easy set ups in fixed installation as well as easy transport for portable applications.
